

## Motorcycle Alarm System MC (8)

### Frequent Asked Questions

**Question:** What type of motorcycles can this system be installed on?

**Answer:** The system can be installed on most motorcycles that use 12VDC power to operate.

**Question:** Can I use this system on motorcycles which uses a 'kick-start' ignition?

**Answer:** You will not be able to use the 'remote-start' function which comes with the kit. You can use the alarm and 'bike finder' functions.

**Question:** If I have problems starting my bike in the morning, will the 'remote start' help?

**Answer:** No! The 'remote start' merely activates your starter switch via the remote transmitter.

**Question:** Will the triggering of the alarm drain the bike's battery?

**Answer:** No! In the ARMED mode, the triggered alarm will sound for 10 seconds, after which it will rearm itself automatically if there are no subsequent activity.

**Question:** Can I set the sensitivity of the alarm system?

**Answer:** Yes! The system comes with 5 stages of factory setting sensitivity.

**Question:** Can the remote transmitter be locked to prevent unauthorized use?

**Answer:** Yes! It can be locked.

**Question:** If my bike requires more than 1 crank to start, can the 'remote start' work efficiently?

**Answer:** The 'remote start' will crack your ignition as long as the '4th' button on your remote transmitter is depressed.

**Question:** Can I install the system myself?

**Answer:** Yes! It is sold as a D-I-Y system with proper installation instructions and wiring diagrams.

**Question:** Is the remote transmitter water resistant?

**Answer:** Yes! The unit can be exposed to rain.

**Question:** Is there any warranty?

**Answer:** The kit comes with a 12 month warranty against any manufacturing defects. All defective components will be replaced during the warranty period.

**Question:** Can I purchase additional remote transmitters to replace lost or damaged units?

**Answer:** Yes! Each set of transmitters has a unique code and we can get duplicate transmitters from the manufacturers as and when they are needed.
